

The DOL storm is coming.

Are your Clients audit-ready?

With increasing budgets and resources, DOL enforcement activity is hitting U.S. employers hard and only getting stronger.

Do each of your Clients...

- Have an ERISA compliant SPD and all other Plan Documents in place and available to employees?
- Properly file Form 5500 every Plan Year?
- Follow all annual Notification requirements (ERISA, PPACA, etc.)?

Non-compliance to these and other ERISA requirements may result in serious penalties and fines, and the DOL is currently on the hunt for Employers, big and small. Rumor is, all Clients will be audited within the next 5 years!

The numbers don't lie:

- ERISAEdge received **33** audit letters since December 2013 from Clients, large and small. *Size doesn't matter!*
- 2012: EBSA processed **271** Sample Investigation Program (SIP) cases.
- 2014: EBSA estimates it will collect **\$1,172,108,000** in total monetary results.
- DOL reports an estimated **95%** of employers are non-compliant.
- Fines range from **\$100 to \$1100** per day.
